

Russel J. Guerra

I am an open-minded individual who aspires to be a full fledged developer. I have strong technical skills. I am a team player. I am eager to be challenged and to be trained in order to grow and improve my professional IT skills gained through previous academic and work experiences in the IT sector.

EXPERIENCE

Open iT, Inc. — .NET + Web Developer

November 2023 - PRESENT

Gladly came back to this company, implementing features/fixing bugs as a Fullstack Developer like before and more:

- Team lead for a small department
- Primary personnel for supporting service requests
- Spearheaded the implementation of Angular to one of the project
- Spearheaded the implementation of Azure DevOps
- Doing code reviews of other developers

Accenture — Software Engineer

March 2023 - November 2023

Mainly attended trainings. Had the opportunity to assess and tackle Technical Depts. Used the implementation of SignalR and Stored Procedure. Also did regression testing through end-to-end testing. With some tasks creating dashboards in Grafana.

Open iT, Inc. — Associate Software Developer

June 2021 - March 2023

Primary focus as a Fullstack Developer, with tech stack:

- Backend:
 - C#, ASP.NET MVC, API, Entity Framework for data access, SQL Server, Repository Pattern, Code First
- Frontend:
 - AngularJS, Javascript, HTML, CSS, Bootstrap

Tasked to develop new features, investigate/fix bugs on 3 different projects. Also tasked to do end-to-end testing and technical documentation. With minor experience on Blazor, PowerBI and Ruby on Rails.

iBayad Online Ventures Inc. — Software/Support Engineer

September 2020 - April 2021

Started out as a Mobile Developer focused on Android Development.

Tasked to:

- Implement new functions
- Change GUI
- Change features

Assigned as Support Engineer.

Tasked to:

- Database lookup/update using SQL queries (Toad)
- Analyzing source code (Java)
- Services and 3rd party services logs lookup
- Service configuration
- Service testing
